6.1, 6.7, 11.0, 18.0, 23.0 GHz DIGITAL MICROWAVE SYSTEM

STA PR Emergency STA

*** Expedited Response Requested By November 23, 2017 ***

Coordination data for the referenced microwave route was forwarded to the existing licensees and applicants whose facilities could be affected on November 16, 2017.

Frequencies allocated for standard use were not used since they failed to meet the interference protection criteria as specified in FCC Rule Part 101.105. Channels set aside for narrow band use per Rule Part 101.147 were used on this system because no other channels were available due to conflicts with the microwave environment.

Frequencies allocated in the 5,925 - 6,425 MHz band were not used since they failed to meet the interference protection criteria as specified in FCC Rule Part 101.105. Channels set aside for 6,525 - 6,875 MHz use per Rule Part 101.147 were used on this system because no channels in 5,925 - 6,425 MHz were available due to conflicts with the microwave and/or Earth station environment.

The following carriers or their designated coordination agents were notified, and there are no unresolved interference objections.
